MEMORANDUM FOR ALL JBSA DRINKING WATER CUSTOMERS

FROM: 502 ABW/CC
2080 Wilson Way
JBSA Ft Sam Houston, Texas 78234-7680

SUBJECT: Cover Letter for 2014 Consumer Confidence Report JBSA-Lackland Annex (PWS ID Number: TX0150275)

1. The Consumer Confidence Report (CCR), also known as the Annual Water Quality Report, is required annually by the EPA Consumer Confidence Rule. The rule requires public water suppliers that serve the same people year round to provide the customers with the CCR by 1 July of each year. The CCR summarizes information regarding sources used (i.e., rivers, lakes, reservoirs, or aquifers) any detected contaminants, compliance and educational information. Specifically, your report lists what sources are used for your drinking water, what contaminants were detected during testing compared to allowable limits, and descriptions of any drinking water violations enforced by the Texas Commission on Environmental Quality during calendar year 2014.

2. All contaminants detected during 2014 were below allowable limits. Your water is safe to drink and meets all regulations for public water systems. The violation for Lead was due to an administrative oversight and at no time was your water not safe for consumption. This violation is closed and further details are included in the attached report.

3. If you have any questions or concerns, please contact the Joint Base San Antonio-Lackland Bioenvironmental Engineering office at 671-7061 for assistance or visit the EPA website at http://water.epa.gov/lawsregs/rulesregs/sdwa/ccr/index.cfm.
