5 November 2013

MEMORANDUM FOR JOINT BASE SAN ANTONIO FACILITY MANAGERS

FROM: JBSA CES/CL

SUBJECT: Fire Protection and Prevention Guidance

1. Effective 1 October 2013, Joint Base San Antonio (JBSA) facility managers will utilize Air Force Instruction 91-203, *Air Force Consolidated Occupational Safety Instruction*, 15 June 2012, for fire protection and prevention guidance. AFI 91-203 will supersede all fire protection and prevention guidance from JBSA-Lackland, JBSA-Randolph, and JBSA-Fort Sam Houston.
2. AFI 91-203 is a comprehensive instruction that encompasses fire protection and prevention guidance. This document updates and merges Air Force safety principles, concepts and program elements into a single consolidated occupational safety and health document. Chapter 6 specifically addresses fire protection and prevention. Subsequent chapters provide guidance on housekeeping, electrical safety, flammable & combustible storage, welding safety, and other relevant fire safety issues.
3. JBSA Fire Emergency Service is committed to providing first class customer service to complete this transition. Our goal is to establish your fire protection and prevention guidance for a safer JBSA community. If there are questions regarding this matter, please contact your local fire prevention office.

JBSA-LAK Fire Prevention Office: (210) 671-2921

JBSA-RND Fire Prevention Office: (210) 652-6915

JBSA-FSH Fire Prevention Office: (210) 221-2727
