

## ARMY SUBSTANCE ABUSE PROGRAM (ASAP)

The mission of the ASAP is to strengthen the overall fitness and effectiveness of the Army's workforce, to conserve manpower, and to enhance the combat readiness of soldiers. The two overarching tenets of the ASAP are Prevention and Treatment.

### OBJECTIVES

The primary goal of the ASAP is to provide soldiers, commanders, ASAP personnel, Unit Prevention Leaders (UPL) and all other members of the Army community with an informative environment surrounding substance abuse in the military. The following are the objectives of the ASAP:

- Increase individual fitness and overall unit readiness.
- Provide services which are proactive and responsive to the needs of the Army's workforce and emphasize alcohol and other drug abuse deterrence, prevention, education, and rehabilitation.
- Implement alcohol and other drug risk reduction and prevention strategies that respond to potential problems before they jeopardize readiness, productivity, and careers.
- Restore to duty those substance-impaired soldiers who have the potential for continued military service.
- Provide effective alcohol and other drug abuse prevention and education at all levels of command and encourage commanders to provide alcohol and drug-free leisure activities.
- Ensure all personnel assigned to ASAP staff are appropriately trained and experienced to accomplish their missions.
- Achieve maximum productivity and reduce absenteeism and attrition among civilian corps members by reducing the effects of the abuse of alcohol and other drugs.
- Improve readiness by extending services to the soldiers, civilian corps members, and family members.

## Examples of Trainings Provided

## Unit Risk Inventory (URI)

The URI is an opportunity for service members to give an honest, anonymous assessment of their well being, and offers commanders the ability to gauge unit readiness and resilience.

The URI is an anonymous survey designed to screen for high-risk behaviors and attitudes that affect unit readiness and personal resiliency.

## Total Number of Individuals Trained

Data below depicts comparison between 2017 - 2019 & the total number of individuals trained in ASAP prevention education.

## Target Audience & Total Training

Training &/or briefing audiences included: service members, military families, & Department of Defense civilians.

## Army Alcohol & Other Drug Offenses

Data Source: 502d Air Base Wing (Security Forces, Provost Marshal)
