

## **NOTICE OF AVAILABILITY**

### **Draft Environmental Assessment and Draft Finding of No Significant Impact Addressing Installation Development at Joint Base San Antonio-Fort Sam Houston, Texas**

The U.S. Air Force (USAF) and Joint Base San Antonio-Fort Sam Houston (JBSA-SAM) announce the availability of a Draft Environmental Assessment (EA) addressing short-term projects for area development in the Corporate and Main Street planning districts at JBSA-SAM. The Draft EA was prepared in accordance with the National Environmental Policy Act (NEPA), Council on Environmental Quality regulations, and USAF instructions implementing NEPA.

The Draft EA describes the USAF proposal to implement short-term projects over the next 10 years to be able to maintain the installation's mission. The short-term projects are divided into four categories: construction, infrastructure improvements, facility demolition, and natural infrastructure improvement projects as identified in the 2017 Corporate and Main Street District Area Development Plans.

The Draft EA evaluates potential impacts on the environment from the Proposed Action, alternatives, and the No Action Alternative. The Draft EA demonstrates that the Proposed Action would not significantly impact the environment and based on this analysis, the USAF has prepared a Draft Finding of No Significant Impact (FONSI).

The Draft EA and Draft FONSI are available for review on the JBSA website at [www.jbsa.mil/resources/environmental](http://www.jbsa.mil/resources/environmental) and, if open, at the San Antonio Public Library, 600 Soledad Street, San Antonio, Texas 78205.

Comments regarding this document will be accepted for 30 days from the publication of this notice. Comments for consideration and other inquiries should be directed by mail to Ms. Kedra Segler, 802 CES/CEIEA, 1555 Gott Street, JBSA-Lackland, Texas 78236, or by email to [kedra.segler@us.af.mil](mailto:kedra.segler@us.af.mil).
