

TEAM JBSA

## Quality of Life Program

We are excited to launch a new **Quality of Life Program** designed to gather and implement innovative ideas that enhance the everyday experiences and resiliency of our Team JBSA members. Your voice matters, and we want your input!

### What It Is

This initiative invites all JBSA personnel to submit grant proposals that could improve quality of life and support resiliency across our installation. Whether it's a new piece of equipment, a community resource, a new program, or a simple improvement to a shared space—if it makes life better, we want to hear about it.

### How it Works

**You can access the Survey Monkey Form through the QR code below. In your submission, please be sure to:**

- Describe the grant proposal clearly
- Outline the estimated cost
- Explain the potential impact on quality of life and resiliency
- Submissions due NLT May 31 at 11:59 p.m.

**Each grant proposal will fall into one of two funding categories:**

- Tier One – up to \$1,000
- Tier Two – up to \$5,000

All grant proposals will be reviewed and shared on social media for voting by the JBSA community. The top-voted proposals will then be submitted to the NAF Council for final consideration. One grant proposal from each tier will be selected and implemented at each JBSA primary location.

### Why It Matters

This is your opportunity to shape your environment and directly contribute to the well-being of our JBSA community. Small ideas can make a big difference, and this program empowers you to be part of that change.

**Scan the QR Code to submit your **bright** ideas today!**
