

## Facility Managers....

Please contact your Fire Inspector prior to the removal of your facility fire extinguishers. If you find an extinguisher that is past due maintenance and are unsure of what to do, call your fire inspector. Extinguishers should be removed from your facility through attrition. Not all facilities can remove extinguishers! **Contact your Fire Inspector for guidance.** Once established that your facility can remove/dispose of the extinguishers, you can contact one of the POC's from JBSA Hazardous-Waste Section for disposal. Managers must contact them prior to bringing the cylinders to the HW Site.

POCs are;

### Program Managers

Primary Robert Hernandez
