## MESSAGE FROM THE FIRE CHIEF

I am honored, humbled, and grateful to serve as the Fire Chief of such an outstanding fire department. Our team is dedicated to providing world-class customer service to the 502d Air Base Wing and the Joint Base San Antonio community. Every day, the professional men and women of our department are prepared to deliver exceptional emergency services when our community needs us most.

Our department is firmly committed to excellence. In April 2025, we proudly earned accreditation through the Commission on Fire Accreditation International, a significant milestone that has strengthened our sense of purpose, reinforced team pride, and elevated public safety.

Joint Base San Antonio Fire & Emergency Services delivers high-quality, all-hazard response to save lives and protect property with courage and compassion-going beyond standards and expectations. Because we care.

A handwritten signature in black ink, appearing to read "MICHAEL GUZMAN".

MICHAEL GUZMAN, M.ED., CFO, FSCEO, CPM  
Installation Fire Chief

*Our Commitment: World Class Customer Service Through Excellence*

\* Commission on Fire Accreditation International (CFAI)

\* Insurance Services office (ISO)

## COMMUNITY

**Joint Base San Antonio-Lackland** was named after Brigadier General Frank Lackland, who was commissioned into the Army after serving in the District of Columbia National Guard. Construction on the base began in 1941 and was originally part of Kelly Field. One year later, it became an independent organization called the San Antonio Aviation Cadet Center. On Feb. 3, 1948, the facility became Lackland Air Force Base, as referred to as the Gateway to the Air Force. The base consists of more than 24,000 active-duty members; 10,000 DOD civilians; and 11,000 contractors and family members.

**Joint Base San Antonio-Fort Sam Houston** traces its roots as far back as 1845 when the Army established a garrison in San Antonio. In 1876, the Army began constructing the Quadrangle on land donated by the city, and the Army garrison moved to the site a few years later. Fort Sam Houston was formally named for General Sam Houston, the hero of the battle of San Jacinto and the first president of the Republic of Texas in 1890. It is unique among Army posts. On the one hand, it is a major, active military installation that plays a vital role in the defense of the nation. On the other hand, it contains some of the oldest structures of any Army installation.

**Joint Base San Antonio-Randolph** began soon after the establishment of the Air Corps Act in 1926, which changed the name of the Army Air Service to the Army Air Corps. General Frank P. Lahm was placed in charge of all flying training and established the Air Corps Training Center and set up its headquarters at Duncan Field, next to Kelly Field. After deciding the facilities at Kelly and Brooks Fields were not enough for proper training, the Air Corps soon decided an additional training field was needed.

**Joint Base San Antonio-Camp Bullis** is a U.S. Army training camp comprising more than 27,000 acres in Bexar County, Texas, just northwest of San Antonio. The camp is named for Brigadier General John L. Bullis. Camp Bullis provides base operations support and training support to JBSA. It is used primarily as a maneuvering ground for U.S. Army, Air Force and Marines combat units. It is also utilized as a field training site for the various medical units stationed at Brooke Army Medical Center in nearby Fort Sam Houston.

# JOINT BASE SAN ANTONIO F&ES 2024-2028 STRATEGIC PLAN

## GOALS

Create a holistic health and wellness program for JBSA Fire & Emergency Services to maximize fitness and wellbeing.

Cultivate human capital for the enhancement of service delivery and organizational health.

Enhance physical assets to ensure mission readiness while building a sustainable future for Joint Base San Antonio.

Refine administrative processes to improve mission capabilities, enhance transparency, strengthen communications, and solidify integration.

Improve external communication processes to strengthen transparency and relationships within the community.

## VISION

We will be an innovative organization, dedicated to respecting tradition while planning for our future, and committed to the safety of our community and the development of our members as a leader in DoD Fire & Emergency Services.

## VALUES

**Integrity** - Accountability and ownership in the community and the fire department.

**Tradition** - Respect for the past while striving for a sustainable future through innovation.

**Ethics** - Teamwork embodying diversity, trust, loyalty, and honesty.

**Professionalism** - Selfless compassion towards the community and peers with respect.

**Resilience** - Adapting to internal and external change with a positive attitude.

## MISSION

JBSA Fire & Emergency Services provides high-quality all-hazard response to save lives and protect property with courage and compassion that exceed established standards and community expectations.
