Bleeding is the #1 cause of preventable death after injury.

The Stop the Bleed program, developed by the American College of Surgeons, teaches you how to take immediate action and stop life-threatening bleeding—before professional help arrives.

In just 45 minutes, you'll learn how to:

- **Identify life-threatening bleeding**
- **Apply direct pressure and wound-packing techniques**
- **Use a tourniquet effectively**
- **Gain the confidence to save a life**
